AMENDMENT TO HOST COUNTY AGREEMENT

This Agreement ("Agreement") is executed July 23, 2009, by Winnebago Reclamation Service, Inc., an Illinois corporation (Winnebago Reclamation), Rock River Environmental Services, Inc., an Illinois corporation ("Rock River"), Winnebago Landfill Company, LLC, an Illinois limited liability company ("Winnebago Landfill Company"), and the County of Winnebago, Illinois (the "County").

The parties have previously entered Host County Agreement dated July 8, 2005 (the Original Host County Agreement) relating to a landfill facility located in the County. The Original Host County Agreement was amended by an amendment dated September 15, 2006 (the "Amendment"), to confirm the terms of the Property Value Protection Plan provided for in the Original Host County Agreement. Where no distinction is required by the context, the Host County Agreement as amended by the Amendment dated September 15, 2006, is referred to as the "Host Agreement."

The Host Agreement is the result of a cooperative effort by the County and Winnebago Landfill Company in planning and implementing solid waste management activities in the County and in the development of the Landfill Facility as a resource that can assist in meeting the general revenue needs of the County, including the County’s efforts in economic development, solid waste planning, education, enforcement and other responsibilities.

The parties desire to amend the Host Agreement to reduce the Host Fee payable with respect to the municipal solid waste ("MSW") generated under certain proposed large volume contracts with a specific customer which will utilize the Landfill Facility for the annual disposal of an average of approximately 1200 tons per day of MSW. The County has determined that it is in the best interests of the County to do so and the parties desire to reduce the terms of the amendment to writing.

Therefore, for valuable consideration, the parties agree as follows:

1. Amendment to Surcharge Host Fee. Paragraph 20 of the Host Agreement is amended by adding an additional subparagraph (d) which reads as follows:

   (d) Notwithstanding the preceding provisions of this paragraph 20 or paragraph 18 to the contrary, commencing as of August 1, 2009, the Surcharge Host Fee shall be $1.00 per ton with respect to: (i) all Waste subject to the Surcharge Host Fee which generated through the Glenview, Illinois, Transfer Station owned by the Solid Waste Agency of Northern Cook County ("SWANCC") under the contract between SWANCC and Groot Industries initially dated November 22, 1995, and any amendments to or replacements of that contract; and (ii) all Waste generated through transfer stations owned and/or operated by Groot Industries and disposed of at the Landfill Facility pursuant to an agreement dated effective as of August 1, 2009, between Winnebago Landfill Company and Groot Industries, and any amendments to or replacements of that contract.
2. Amendment to CPI Adjustment. Paragraph 20 of the Host Agreement is amended by adding an additional subparagraph (e) which reads as follows:

    (e) Notwithstanding the preceding provisions of this paragraph 20 to the contrary, the Surcharge Host Fee and the Base Host Fee payable with respect to Waste described in subparagraph 20(d) above shall not be subject to the adjustment described in this paragraph 20.

3. Records. Subparagraph 21(b) of the Host Agreement is amended by adding the following additional sentences and the end of the existing subparagraph:

    The records maintained by Winnebago Landfill Company shall reflect the total quantity of Waste described in subparagraph 20(d) above which is disposed of in the Landfill Facility on a daily basis. HOST COUNTY AGREEMENT

This Host County Agreement ("Agreement") is made this 5th day of December, 2011, between Winnebago Reclamation Service, Inc., an Illinois corporation ("Winnebago Reclamation"), Winnebago Landfill Company, LLC, an Illinois limited liability company ("Winnebago Landfill Company"), and the County of Winnebago, Illinois (the "County").

Winnebago Landfill Company is the owner of the landfill facility located on Lindenwood Road in unincorporated Winnebago County, Illinois. Winnebago Reclamation is the current operator of the landfill facility located on Lindenwood Road in unincorporated Winnebago County, Illinois.

The facility which includes the Landfill was granted local siting approval on October 12, 1990 and December 8, 2005, by the County, pursuant to Section 39.2 of the Illinois Environmental Protection Act (the "Act"). 415 ILCS 5/1 et seq. The facility, as currently permitted, includes five Municipal Solid Waste Landfill units ("MSWLF units"); a recycling center, a landfill gas processing plant, borrow sources including a permitted limestone quarry, and other related improvements and undeveloped land.

The three of the existing MSWLF units are now closed and the other two are expected to reach capacity and be closed by approximately 2019. The legal description of the facility is attached as Exhibit A, and a site plan depicting the facility is attached as Exhibit B.

Rock River Environmental Services, Inc. is an affiliated company of Winnebago Landfill Company and Winnebago Reclamation Service and is engaged, in the collection, transportation, and disposal of municipal solid waste and other non-hazardous wastes, recyclable materials, and the collection and composting of yard waste. A substantial part of the wastes that are disposed of at the facility and the recyclable materials that are processed at the facility are collected and transported by Rock River and its subsidiaries.

Where no distinction is required by the context Winnebago Reclamation, and Winnebago Landfill Company are referred to in this agreement as the "Companies."

Winnebago Landfill Company intends to file a request with the County for local siting approval for an expansion of the Facility which will include the development of one additional MSWLF unit. The additional unit will lie to the east of the existing MSWLF units on adjacent real property.

Although the precise details of the Expansion (as defined below), including the waste boundaries and capacity of the proposed MSWLF unit, have not been determined, it is anticipated that the Expansion will be generally as depicted on the site plan attached as Exhibit C.

Under applicable Illinois law, the County has the primary responsibility for solid waste management planning in the county, including both unincorporated and incorporated areas. The County desires to obtain the assistance of the Companies, in providing solid waste management planning, education and services for its residents and desires to use revenues which it may lawfully derive from the operation of pollution control facilities in
the County to defray the costs of its solid waste management responsibilities and for the
general economic development and governmental functions of the County.

Winnebago Landfill Company is willing to cooperate with the County in planning
and implementing solid waste management activities in the County and to pay the County
a "Host Fee," based on the operation of the Facility, including the Expansion, to be used to
assist the County in meeting the general revenue needs of the County as the County may
decide appropriate, including the County's efforts in economic development, solid waste
planning, education, enforcement and other solid waste related responsibilities.

The County desires to secure, and Winnebago Landfill Company is willing to
provide, long-term landfill disposal capacity and other waste management services for
residents, businesses and institutions located in the County.

Winnebago Landfill Company and Winnebago Reclamation have owned and
operated the Facility since 1972, and during that period have provided safe and responsible
landfill and waste management services to residents, municipalities and businesses in the
County, and the Companies and their affiliates have been active participants in local
economic development efforts and environmental organizations and have promoted
environmental education efforts in the County.

The Companies will continue to own and operate the Facility and the Expansion in
the County for the foreseeable future, and continue their participation in County
environmental and economic development activities and to keep the County fully
informed of the nature of their operations and their expansion plans. In this regard, it is the
policy of the Companies to demonstrate that its operations are, have been and will
continue to be conducted in an environmentally sound manner.

The County desires to protect the health, safety and welfare of its citizens, assist
with public environmental education, insure that factually and technically accurate
information relating to the Facility is given to the public, and receive appropriate fees to
help meet the costs of County government.

NOW, THEREFORE, in consideration of the mutual undertakings set forth in this
Agreement and the opportunity for public/private cooperation on environmental and solid
waste management matters and other valuable consideration, the sufficiency, adequacy and
receipt of which is acknowledged, the parties agree as follows:

Incorporation of Recitals. The above recitals are incorporated as part of this

Expiration Date. The "Term of this Agreement" shall expire on the later to occur of the following: (a) thirty (30) years after the Closure of all waste disposal units located at the Expanded Facility; or (b) thirty (30) years after the Closure of the Expanded Facility. If applicable law or IEPA action requires a landfill post closure care period of more than thirty (30) years, the thirty (30) year period provided for in this section shall be increased to the number of years for which landfill post closure care is required.

Ban on Hazardous Waste. Winnebago Landfill Company will not knowingly accept, treat, or dispose of any Hazardous Waste at the Facility or the Expansion.

Capacity for the County. Commencing on the Siting Approval Date Winnebago Landfill Company will have a minimum of twenty years of capacity for the disposal of Solid Waste generated within the County ("County Wastes").
Landfill Capacity Determination. Commencing on the Siting Approval Date, upon request by the county, Winnebago Landfill Company shall provide the County with a determination of the remaining capacity at the Facility.

Records. Following the Siting Approval Date, Winnebago Landfill Company shall provide the County on request, without charge, copies of the following documents relating to the Facility and the Expansion:

a. Those submitted by Winnebago Landfill Company or its agents or consultants to any State or federal environmental agency; and

Written correspondence with any State or federal environmental regulatory agency other than routine correspondence and correspondence requesting authority to dispose of particular nonhazardous Special Waste streams; and

Those filed with or received from any State or federal regulatory agency relevant to charges, complaints or citations of environmental violations made by any governmental authority; and

Records maintained by Winnebago Landfill Company which reflect the amount of Waste received for disposal at the Expanded Facility.

Well Monitoring. (a) Within ninety (90) days after issuance of the first IEPA permit to construct a MSWLF unit within the Expansion and prior to the commencement of construction, Winnebago Landfill Company shall mail to the owners of all water supply wells within one thousand (1,000) feet of the waste boundary of the new MSWLF unit, by certified mail, return receipt requested, a written request seeking permission from the owners to sample their wells for background and for routine monitoring.

(b) Winnebago Landfill Company and the County shall use their collective best efforts to obtain permission to monitor the wells within the radius described above. Winnebago Landfill Company shall monitor the wells of those consenting owners on an annual basis for the Term of this Agreement, at Winnebago Landfill Company's expense, for the purposes of determining the quality of the water for human consumption, and shall provide the results of each sampling to the County Health Department and to the owner of the property. Testing shall be performed for those parameters or contaminants for which testing is performed by a municipal water system and shall include any additional, reasonably necessary testing requested by the County Health Department. If any test results demonstrate that the groundwater from the well has been contaminated and the landfill is identified as the source, Winnebago Landfill Company shall monitor the well on a quarterly basis until there have been four consecutive quarters in which no contamination is detected in the well or until it has been determined in the manner provided below that the source of the contamination is not the Facility.

12. Contamination. If any water supply well required to be monitored under the preceding paragraph is contaminated and the source of contamination is the Facility or the Expansion (as determined by a laboratory analysis of samples submitted to a USEPA certified laboratory and the certification of an independent hydrogeologist, each selected by Winnebago Landfill Company at its expense), Winnebago Landfill Company shall provide an alternate potable water supply to
that owner, such as bottled water and may include a new well to replace the contaminated well. The alternate potable water supply shall be provided within twenty-four (24) hours after Winnebago Landfill Company receives the results of the laboratory analysis and the hydrogeologist's certification. For purposes of this Agreement, the terms "contaminated" and "potable" shall have the meanings ascribed to them in the Act and as set forth in the more stringent of the United States Environmental Protection Agency ("USEPA") or IEPA Drinking Water Regulations. The selection of an independent hydrogeologist shall be subject to the reasonable approval of the County. If the County does not approve the selection of a hydrogeologist, Winnebago Landfill Company shall select the hydrogeologist from a list prepared by the County of at least three (3) independent hydrogeologists experienced in the analysis of landfill groundwater impacts.

13. Property Value Protection Plan. Effective as of the Siting Approval Date, Winnebago Landfill Company agrees to comply with the "Property Value Protection Plan" agreed to between the parties. Applicant shall provide a proposed Property Value Protection Plan prior to filing an application for local siting approval, and the parties hereto shall negotiate in good faith to agree on a Plan.

14. Insurance. In addition to the financial assurance requirements of the State of Illinois, Winnebago Landfill Company shall also maintain an environmental impairment liability policy of insurance in an amount not less than One Million Dollars ($1,000,000) for each loss and One Million Dollars ($1,000,000) for all losses resulting from the operation of the Facility or the Expansion. Winnebago Landfill Company shall name the County as an additional insured under each such policy and shall annually provide the County Health Department with a certificate of insurance confirming that the insurance required by this section is in effect.

15. Indemnification. The Companies agrees to indemnify and hold harmless the County, its agents, servants, employees and each of them against, and hold it and them harmless from and against, any and all lawsuits, claims, demands, liabilities, losses and expenses (including court costs, litigation expenses and attorney's fees) for or on account of any injury to any person or any death at any time resulting from such injury, or any damage to property, which may arise or which may be alleged to have arisen out of or in connection with the operation, construction and development of the Facility or the Expansion, as well as in connection with the rendering of all other services covered by this Agreement. The foregoing indemnity shall not apply if such injury, death or damage is caused directly by the primary negligence of the County, its agents, servants or employees or any other person indemnified under this Agreement.

16. Host County Fee. (a) Winnebago Landfill Company shall pay the County a Host County Fee determined in the manner set forth below. The Host County Fee may be used by the County for such benefits, services and facilities as are customarily and legally permitted to be funded from the County's general fund.

The measurement of all weights relevant to any portion of the Host County Fee shall be determined by certified scale, which shall be inspected annually.

17. Host Fee. (a) Commencing on the first day that waste is deposited in the expanded area to the east of the existing landfill, as described in Exhibit D attached hereto, the Host Fee shall be determined by reference to average monthly volumes of waste disposed per customer and shall be as follows:
<table>
<thead>
<tr>
<th>Source</th>
<th>Fee/Ton</th>
</tr>
</thead>
<tbody>
<tr>
<td>Direct Haul Waste - Rock River Environmental Services and affiliates</td>
<td>$ 2.27</td>
</tr>
<tr>
<td>Direct Haul Waste by others</td>
<td>$ 2.27</td>
</tr>
<tr>
<td>Transfer Waste - Rock River Environmental Services and affiliates</td>
<td>$ 2.27 (or lowest most favored rate - whichever is less)</td>
</tr>
<tr>
<td>Transfer Waste &lt;500 tpd (monthly average)</td>
<td>$ 3.27</td>
</tr>
<tr>
<td>Transfer Waste 501&gt;1,000 tpd (monthly average)</td>
<td>$ 2.77</td>
</tr>
<tr>
<td>Transfer Waste &gt;1,001 tpd (monthly average)</td>
<td>$ 2.27</td>
</tr>
</tbody>
</table>

(b) In consideration of the Host Fee, Winnebago Landfill Company shall be entitled to a credit against any tax imposed by the County under Section 22.15 of the Act (or any successor or replacement tax) in an amount equal to the Base Host Fee paid by Winnebago Landfill Company; provided, however, that the credit shall not exceed the amount of the tax or any successor or replacement tax.

(c) The schedule in subsection (a) notwithstanding, the Host Fee shall be $2.27 per ton with respect to: (i) all Waste subject to the Host Fee which generated through the Glenview, Illinois, Transfer Station owned by the Solid Waste Agency of Northern Cook County ("SWANCC") under the contract between SWANCC and Groot Industries initially dated November 22, 1995, and any amendments to or replacements of that contract; and (ii) all Waste generated through transfer stations owned and/or operated by Groot Industries and disposed of at the Landfill Facility pursuant to an agreement dated effective as of August 1, 2009, between Winnebago Landfill Company and Groot Industries, and any amendments to or replacements of that contract.

(d) County will credit for waste generated by Rock River Environmental Services and affiliates, $0.27 cents per ton to be used for the advancement of recycling, renewable energy, waste diversion, and environmental programs. The credit will be applicable to Rock River Environmental Services and affiliates for any covered activity occurring after the date of execution of this Host County Agreement, even though the activity occurred prior to the opening of the Eastern Expansion Unit covered by this Agreement.

(e) If Winnebago Landfill Company or Winnebago Reclamation Services commences any alternative method of disposal of waste at the facility or at an adjacent facility on the environmental campus that results in a diversion or reduction
of the amount of waste going to the landfill, the host fee shall apply to that waste diverted or reduced, with the exception that materials diverted or reduced from recycling activity will be exempt from the fee.

18 Adjustments. (a) The Host Fee shall be adjusted at 5 year intervals after waste is initially accepted into the eastern expansion. The increase will be equal to the previous five year average annual percentage increase in the United States Department of Labor, Bureau of Labor Statistics, Revised Consumer Price Index for all Urban Consumers (the "Index"). The Host Fee shall be determined by multiplying each of the fees set forth in the Fee Schedule by 1.0 plus the previous five year average annual percentage increase in the Index. The adjusted fee shall apply for the following 5 year period. For example, if filling in the East Expansion begins in 2020, a review of the five-year Index will occur in 2025 as follows:

<table>
<thead>
<tr>
<th>Year</th>
<th>Annual CPI Increase</th>
</tr>
</thead>
<tbody>
<tr>
<td>2020</td>
<td>2.5%</td>
</tr>
<tr>
<td>2021</td>
<td>2.6%</td>
</tr>
<tr>
<td>2022</td>
<td>2.9%</td>
</tr>
<tr>
<td>2023</td>
<td>3.2%</td>
</tr>
<tr>
<td>2024</td>
<td>4.9%</td>
</tr>
<tr>
<td>5 Year Average</td>
<td>3.2%</td>
</tr>
</tbody>
</table>

In the previous example, a 3.2% increase will be added to the original host fee for each type of waste in 2025 and will remain constant for the years 2026, 2027, 2028, 2029. The 5 year review and adjustment will be repeated at 5 year intervals for the life of the host agreement.

(b) Payment. All Host Fees shall be payable quarterly on or before the 30th day of the month following the end of each calendar quarter based on the tonnage of Waste subject to the Host County Fees received in the immediately preceding quarter.

(c) Winnebago Landfill Company agrees to keep during the Term of this agreement strict and accurate books and records of all Waste disposed of at the Facility and the Expansion, including separate records of Transfer Waste which are adequate to allow for independent audit, for the preceding five years, and the County shall have the right to examine the books and records of Winnebago Landfill Company at reasonable times for the purpose of verifying the amount of Host County Fees payable under this agreement.

Other Services. To assist the County in developing, updating and meeting the recycling and education objectives of the County Plan, the Companies will cooperate with the County to establish education, waste collection, yard waste collection, recycling and other waste management programs within the unincorporated areas of the County. Subject to applicable law, the County will grant the Companies a reasonable first and prior opportunity to negotiate contracts, having mutually acceptable terms, under which Winnebago Landfill Company or its subcontractors will provide any such services which the County determines to make available to its residents.
20. **Compliance with Applicable Laws, Rules and Regulations.** The Companies will, at all times, conduct their operations at the Facility and the Expansion in material compliance with all applicable laws, rules and regulations of the State of Illinois and United States of America. The acceptance of the Host County Fee under this Agreement shall not be construed as a waiver by the County of material compliance by the Companies with all such laws, rules and regulations, nor otherwise restrain or prohibit the County from taking such legal action as may be necessary to protect the health, safety and general welfare of the residents of the County.

21. **County Obligations.** (a) The County agrees to suitably maintain all highways within its maintenance jurisdiction which are utilized by the Companies in their operations. In addition, the County shall assist the Companies in protecting the health, safety and welfare of its citizens by offering technical advice to the Companies, where appropriate, and will assist the Companies in a reasonable manner consistent with the County Plan in establishing or promoting programs which are intended to reduce the volume of Solid Waste generated in the County.

   (b) Notwithstanding any other provision of this agreement to the contrary, neither this agreement nor any provision of this agreement shall be construed as a commitment by the County to approve an application for site location approval for the Expansion or for any other pollution control facility. The parties acknowledge that any such application shall be considered by the County strictly on the merits, based on the evidence, in accordance with the provisions of Section 39.2 of the Act.

22. **County Solid Waste Management Plan.** The County shall include Facility and the proposed or approved Expansion in all updates or amendments to the County Plan.

23. **Enforcement.** The parties agree that the County shall have the right to enforce this Agreement by an action in the Winnebago County Circuit Court; provided, however, that prior to commencing any action, the County shall give Winnebago Landfill Company ten (10) days written notice in the case of the nonpayment of fees and thirty (30) days written notice in other cases of any non-compliance. Within five (5) days after any notice of non-compliance, Winnebago Landfill Company shall inform the County in writing of all defenses which it has to the alleged violation, and Winnebago Landfill Company shall not assert any defense not described. Winnebago Landfill Company shall have the right to correct any violation within the applicable period, or within such time as the parties may agree in writing. If such a violation is not corrected, the County may seek any and all appropriate relief without limitation and, if successful, shall be entitled to reasonable attorney’s fees and costs and reimbursement for all expenses of litigation.

24. **Assignment of Rights.** This Agreement shall be binding upon the parties and their respective successors and assigns. An assignment of this Agreement shall not relieve Winnebago Landfill Company of its contractual obligations pursuant to this Agreement without the express written approval of the County, which the County shall not unreasonably withhold.

25. **Covenant.** This Agreement shall constitute a covenant in the nature of a covenant running with the land. Winnebago Landfill Company agrees to execute all additional documents necessary for the recording of this Agreement in the Winnebago County Recorder’s Office.
26. **Amendment to Agreement.** This Agreement may not be amended except by a written agreement signed by both parties.

27. **Site Location Decision.** The County has not, by entering into this Agreement with the Companies, predetermined whether it will grant or deny site location approval for the Expansion or whether the Companies can (or cannot) establish any of the criteria related to site location approval. However, the Companies shall initiate and use their continuing best efforts to obtain siting approval for the Expansion pursuant to applicable state statute, the applicable County ordinances and any other applicable law, statute, regulation, rule, policy or ordinance. All such siting efforts must be undertaken and completed at the sole expense of the Companies. In addition, a Pollution Control Facility siting application must be submitted by Company to the County within twelve (12) months after the effective date of this Agreement, unless the County consents in writing to an extension of this period for good cause shown. The County shall review Company’s application for site location approval for the Expansion in accordance with the criteria set forth by Illinois law as provided for in 415 ILCS 5/39.2.

28. **Force Majeure.** Except for Winnebago Landfill Company’s obligations to pay fees to the County under this Host Agreement, until the time of failure to perform for the reasons stated in this section, no party shall be liable for its failure to perform under this Host Agreement due to contingencies beyond its reasonable control, including, without limitation, strikes, riots, war, fire, acts of God, compliance with any law, regulation or order, whether valid or invalid, of the United States of America or any other governmental body or any instrumentality thereof, whether now existing or hereafter created, or the revocation, suspension, denial or modification of any permit, license or approval regarding the siting, construction, operation, or maintenance of the Expanded Facility.

29. **Waiver.** Unless specifically provided by the terms of this Host Agreement, no delay or failure to exercise a right resulting from any breach of this Host Agreement shall impair such right or shall be construed to be a waiver thereof, but such right may be exercised from time to time and as often as may be deemed expedient. Any waiver shall be in writing and signed by the party granting such waiver. If any representation, warranty or covenant contained in this Village Agreement is breached by either party and thereafter waived by the other party, such waiver shall be limited to the particular breach so waived and shall not be deemed to waive, either expressly or impliedly, and other breach under this Host Agreement.

30. **Severability.** Should any provision of this Host Agreement be determined to be in conflict with any law, statute or regulation by a court of competent jurisdiction or other duly constituted authority, said provision shall be excluded and deemed inoperative, unenforceable, and though not provided for herein, and to the extent possible, all other obligations shall remain unaffected, unimpaired, valid and in full force and effect in order to carry out the intentions of the parties. If this Host Agreement is declared invalid by a court of competent jurisdiction, the parties will enter into good-faith negotiations to develop a revised agreement to carry out the intentions of the parties in entering into this Host Agreement.

31. **Entire Agreement.** This Agreement sets forth all agreements, understandings and covenants between the parties, and it supersedes all prior agreements, negotiations and understandings, written and oral, and is a full integration of the entire agreement of the parties.

EXHIBIT B: Alternate Service Options

Alternate Service Options

Alternate Option One – EcoBrite’s Standard Program

Our contract structure is customer centric focusing on providing the opportunity for our customers to manage and reduce their overall cost. Our billing is based on actual items delivered and we do not charge any inventory fees or auto loss charges, surcharges etc.

If items are not returned after 90 days, Customer is billed the depreciated value (based on expected life cycle utilizing our RFID tracking) if returned within 180 days customer is issued a full credit.

Our technology eliminated the needs for ordering linen as we can track almost everything based on usage and automatically maintain par levels. Additionally it allows us to provide actionable feedback to customer to reduce losses, monitor and manage usage and optimize products.

Deliveries are made on a 3 or 6 day delivery schedule by professional, non-commissioned route representatives. There are no added delivery or service charges on either schedule. Delivery carts of the highest quality or provided at no additional cost for both the delivery of clean product and the retrieval of soiled.

Summary:

- No need to for customer to place orders. Technology driven based on actual customer usage.
- No inventory, automatic loss, delivery or service charges. Per unit based pricing invoiced on actual use.
- Losses only invoiced when item not returned for 90 days.
- Soil Bags are sold as a direct sale item at $38.15 per box (200 count).

Option One Pricing

There are no additional or hidden charges with EcoBrite. We supply and invoice only based on actual usage. Shelves will be stocked correctly without worry of shortage. Unlike many of our competitors who quote low unit cost but then charge for inventory, price guarantee and other line item charges EcoBrite actually employs and provides staff to reduce waste and improve our client’s balance sheets.

With that in mind and after analysis of River Bluff’s 2016 Illinois Cost Report, we estimate the PPD cost (including personals, housekeeping, table linen and losses) with EcoBrite’s pricing model to be $4.45 or less. Therefore we are prepared to guarantee and cap the total annual cost at $430,000.00. We are confident that River Bluff will experience much higher savings but are fully prepared to cap at this sum under Option One Pricing. This is based on a resident census of 210.

Personal Clothing

EcoBrite prefers to manage resident personal laundry on an individual basis. This reduces labor for the customer and utilizing our RFID technology, we can track the bags in and out. We know when the items arrived and when they are due back.

Each resident is issued at no cost to customer an appropriate number of RFID chipped laundry bags. Each bag is numbered and the resident name is labeled by the customer. An active roster is created and when new residents arrive there are ample bags ready to be assigned to them.

Garments are washed in individual mesh bags, one per resident along with other individual mesh bags. Each resident’s clothing is then dried individually with bag always in the load with the laundry. Clothing removed from dryer is hung and undergarment are folded and placed in the bag. The bag is tied to the hung items and placed on rolling racks for delivery to customer. The customer laundry personnel have a very easy time distributing the clothing to each resident.

EcoBrite’s Optimization Team is responsible for the returning of dentures, phones, wallets etc. Items not marked are also assigned to the Optimization Team to find their owner. Links to photos sorted by type are sent out on a regular basis. We also respond to requests for missing items and have a very high success rate. Overall our clients currently experience a 99.8% of lost garments and personal belongings.

This very effective and unique service along with hangers, carts and personal bags are included in the per clean pound price of $0.75 per pound. Customer Owned goods that can be laundered in a regular process are also priced at $0.75 per clean pound.

As an optional service at customer facility we will load and unload linen shelves and deliver personal laundry to resident rooms, up to a maximum of 25 hours per week for $32,500.00 annually.
Alternate Option Two Pricing (Guaranteed Flat Rate)

All services included in Option One, including personal laundry service and linen losses. Additionally, we will load and unload linen shelves and deliver personal laundry to resident rooms, up to a maximum of 35 hours per week. Soil and personal garment bags also included. **$430,000.00 annually with CPI price increases annually.** Invoiced weekly in equal 52 amounts annually.
EXHIBIT C: Clarification to Proposal Submitted by EcoBrite Linen

Census Adjustments – On a quarterly basis a review of the prior quarter’s average of River Bluff’s census will be reviewed. EcoBrite’s proposed cost is based on the original census number given of 210. EcoBrite is offering two options to River Bluff regarding census change:

a) Option One - EcoBrite is offering to cap annual expenditures of River Bluff at $430,000.00 for the services EcoBrite provides. On a quarterly basis this cap will increase or decrease based the census average of each annual quarter. Since this is an annual cap, updates will be reported quarterly so that each party is aware of any change to the annual cap guarantee. If for example there is a quarter where there is a 25% decrease in census resulting in an annual average census decrease of 10% the annual cap will be reduced by 10%. Since the cap is annualized and this option is usage based, actual billing will not be effected until the final quarter’s adjustment is made and if the final cap adjustment is reached.

b) Option Two – EcoBrite is offering a flat rate cost regardless of usage or losses incurred by River Bluff. The proposed amount is $430,000.00 annually. This amount includes all services, product, 35 hours of weekly staffing and linen and garment losses. On a quarterly basis, EcoBrite also proposes to adjust each quarter’s monthly flat rate billing amount to the prior quarter’s census change if one occurs. For example if there is a 10% census loss in the second quarter of 2018 (April, May, June) the monthly flat rate billing amount will be reduced accordingly by 10% over each of 2018’s Q3 three months (July, August, September). This methodology will be applied for each quarter and the 1st of the following year (4th quarterly adjustment).

Option Changes - River Bluff may change options after year one from Option Two to Option One at its discretion. However after moving to Option One EcoBrite reserves the right to decline a change back to Option Two in the following service years.

EcoBrite Provided Staffing – On the EcoBrite submitted proposal the maximum weekly hour allowance of the EcoBrite provided staffing is 25. These EcoBrite employees will work on site at River Bluff and will stock and manage its linen and garment program. After further review EcoBrite will offer up to five hours daily, seven days a week with a maximum number of hours of 35 weekly.
**EXHIBIT D: River Bluff Selection of Option Two**

River Bluff has elected to move forward with Option Two of EcoBrite Linen’s proposal.

This option is the flat rate option where all costs associated with EcoBrite’s services. As clarified in Exhibit C this includes, linen supplied, staffing, and losses.

Also as clarified in Exhibit be the cost is $430,000.00 annually with quarterly adjustments for decreases or increases in prior quarter’s average census.

Mr. Don Krizan, P.E., CFM
Winnebago County Highway Department
424 N. Springfield Avenue
Rockford, Illinois 61101-5097

Proposal No.: 17-0279
Re: Proposal for Welworth/Wentworth Bioretention Basins Design

Dear Mr. Krizan:

As requested, we have prepared a consulting services proposal for the design of two bioretention basins along Welworth and Wentworth Avenues in Rockford, Illinois.

SCOPE OF SERVICES

Task 1 – Existing Data Review and Processing
Hey will review and process available existing conditions data. This includes the survey points provided by Winnebago County, which will be used to generate site contours. This will also include a design utility locate for locations of buried sewer, water, electrical, telephone, cable and gas lines.

Task 2 – Preliminary Design
Hey will prepare a preliminary site plan and estimated construction costs (materials only) for review. This will be based on the site sketch provided by Winnebago County that depicts a plan that makes use of existing culvert crossings at this intersection. Preliminary plan sheets include: Cover, Notes and Quantities, Existing Conditions, SE/SC, Grading and Drainage, Planting Plan, and Typical Sections and Details. Quantities and phasing will be separated for the two bioretention basins. This task will be completed by December 1, 2017.

Task 3 – Final Design
Based on Winnebago County and IEPA review and comments, Hey will update and finalize the engineering plans. Final project quantities will be prepared. Final recommendations on construction timing and any adjustments to proposed plantings based on time of implementation will be made. It is assumed that due to the residential nature of the sites, that Winnebago County will coordinate and arrange for disposal of excavated fill or debris. This task will be completed by February 1, 2018.

Task 4 – Preparation of BMP Application Forms
We will prepare the BMP application forms for the proposed bioretention basins and submit with the preliminary design plans.
We know that you are aware and knowledgeable on the many submittal requirements for an IEPA 319 Grant. In order to provide the best possible cost, this proposal does not include the following services: Preparation and/or submittal of quarterly reports (grant requirement), Preparation and/or submittal of final report (grant requirement), Preparation of O&M Plan (grant requirement), Preparation of Part 2 - Installed BMP Documentation Form (grant requirement) because info/costs on construction necessary, Design of project signage (grant requirement). Should our help be needed, we would be happy to assist with any of these items on a time and materials basis or by separate proposal.

FEES AND REIMBURSABLE EXPENSES
The proposed method of payment for the proposed services will be time and materials basis not to exceed $17,230. Reimbursable expenses and supplies are included in the proposed fees including travel, reproductions, shipping/delivery, aerial photographs, phone and other communication charges, equipment and supply costs related to the execution of the project. Any mutually agreed supplemental work would be in addition to the above amount or by separate proposal. A summary of the costs by task are shown in the tables below.
