ORDINANCE
of the
COUNTY BOARD OF THE COUNTY OF WINNEBAGO, ILLINOIS

Submitted by: Finance Committee

2018 CR

AN ORDINANCE CREATING SECTIONS OF CHAPTER 2, ARTICLE II,
DIVISION 1 (PENSION OBLIGATION BOND POLICY)
OF THE COUNTY CODE OF ORDINANCES

WHEREAS, the Winnebago County Code of Ordinances, Division 1, Chapter 2, Article II, deals with General Issues of the County Board; and

WHEREAS, the County wishes to create Division 1, Section 2-37 of Chapter 2, Article II of the County Code of Ordinances setting a policy for Pension Obligation Bonds.

NOW, THEREFORE, BE IT ORDAINED, by the County Board of the County of Winnebago, Illinois, that Chapter 2, Article II, Division 1 of the County Code of Ordinances be amended as follows:

Sec. 2-37 – Pension Obligation Bond Policy

In conjunction with the issuance of the County’s general obligation bonds to fund the Pension Plan’s unfunded liabilities, the County is adopting this policy to set forth the following:

1. The County’s commitment to diligently funding its unfunded pension liabilities in the most efficient and cost effective manner possible.

2. The County’s recognition of the potential benefits and risks associated with Pension Obligation Bonds (POBs); and

3. Procedures the County will follow in order to mitigate these risks.

Therefore, the County hereby adopts the following Pension Obligation Bond policy:
I. The County has determined that issuing POBs assures a more rapid funding of the Pension Plan with significant expected savings while recognizing that it will incur certain risks by doing so.

II. The principal risk the County will incur is that bond proceeds are expected to be invested by the pension plan at an overall return higher than the interest rates on the bonds and that rate of return may not be realized.

A. The County has determined that it is likely that the Pension Plan will achieve an average return on the investment of POB proceeds over the life of the POBs at the plan’s actuarial rate of 7.5%. Further, County believes the plan should at least achieve a return above the expected rate on the POBs of approximately 4.5% which is the County’s break-even point.

B. Should the overall return on the investment of bond proceeds be less than the POB interest rate, the POBs would cost the County more than the plan’s current funding methodology. In addition, the investment of bond proceeds could result in adverse market timing.

III. In order to mitigate these risks the County has determined to adopt the following policies and procedures, recognizing that these procedures will not eliminate all risks:

A. The County will not use any bond proceeds to fund annual “normal” costs nor will it fund any capitalized interest with bond proceeds with a view to reducing current cost in exchange for higher long-term costs.

B. The County will not extend the bonds beyond the current plan’s amortization period nor will it defer principal repayments versus the current payment methodology.

C. The County will not use any other financing technique which will have the effect of enhancing early year savings at the expense of higher long-term costs.

D. County will further limit its risk by not using guaranteed investment contracts, swaps or other derivative products in conjunction with the POBs, thus avoiding counter-party risk, credit risk and related interest rate risk.

E. Because the bonds will be alternate revenue source, the POBs will not utilize any of the County’s debt capacity. Further, because the pension liability is already a debt of the County, the issuance of POBs will not increase the County’s overall debt burden. Finally, the bonds are expected to be issued with no longer than a ten-year optional par call allowing for refunding or restructuring of the bonds in the future.

F. The County recognizes that the current actuarial based funding methodology uses a constant percent of payroll factor resulting in estimated future payments to amortize the current unfunded liabilities that are higher than the current payment amount. In order to address this unsustainable practice, the County’s POBs will be issued with a debt service payment structure that will limit early year expected savings to the County in order to allow for level debt service on the bonds as soon as is practicable in the future.
G. The County will create a linkage between its unfunded pension liabilities and its POBs in its annual budget so that future County leaders will recognize that the County has chosen to issue bonds to fund liability. This will assure that the proper understanding of the pension plan’s funding status must include recognizing the POBs as a pension liability.

H. The County will create a Budget Stabilization Fund, funded initially with POB proceeds that may be utilized to offset short-term smoothed losses due to any annual investment performance below the actuarial rate of 7.5%.

**BE IT FURTHER ORDAINED**, that all ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of such conflict.

**BE IT FURTHER ORDAINED**, that all other portions of Division 1, Chapter 2, Article II of the County Code of Ordinances shall remain unchanged.

**BE IT FURTHER ORDAINED**, that this Ordinance shall be effective immediately upon passage.

**BE IT FURTHER ORDAINED**, that the Winnebago County Clerk shall place a certified copy of this Ordinance Amendment upon its adoption in the records of office of the Winnebago County Clerk.

Subject: Snow Plowing Services Bid #18B-2154

County Code: Winnebago County Purchasing Ordinance

Background:
The most recent Snow Plowing Services contract for The County of Winnebago has expired. The Purchasing Department went out for Bid #18B-2154 in September for a new Snow Plowing Services contract. The bid allowed for an initial one (1) year contract, with the possibility of four (4) one (1) year renewal periods.

There were a total of three bids received, with LCU Properties being the lowest responsible bidder overall. Please see Bid Tab for more details.

Recommendation:
The County of Winnebago has been very satisfied with the snow plowing services provided by LCU Properties in previous years. Therefore, the County’s Facilities Engineer, Shawn Franks, recommends the contract for Bid #18-2154 be awarded to LCU Properties.

Executive Summary

➢ Included is an analysis page of the vendor responses that I was able to receive.

➢ It was extremely difficult to find vendors that not only provided Geo-fencing technology but also provided it at a cost effective level for consideration. Many local vendors did not respond to our numerous reach out attempts; many vendors utilize this technology for major advertising at a minimum monthly cost from $5,000 to $50,000 per month.

➢ In reviewing the 2016/2017 fiscal years advertising expenses, clearly $13,868 dollars were spent on recruitment advertising. This number will increase in the 2017/2018 fiscal year due to River Bluff spending $1,200 per month ($14,400 annually) in the 2017/2018 fiscal year as compared to $765 per month ($9,200 annually) in the 2016/2017 fiscal year. This advertisement will be replaced with this Geo-fencing product at $18,000 annually.

➢ This is a local vendor that has also agreed to include two free promotional advertising runs annually on their local television channels.

According to the Pew Research Center, over 78% of millennials and 73% of Gen Xers use mobile devices to find jobs. It's not just a white-collar behavior either - 80% of searches for cleaning, construction, originate from mobile devices. Recruiters that take note of these stats and use mobile advertising to get in front of an increasingly connected and on-the-go applicant will have an upper hand on their competition.

According to GeoFencing blog, There has been a big shift in recruiting and companies need to get on board. If you're a company that needs niche workers (Nurses, electricians, lab techs), you need to start thinking differently about your hiring process. The good news is that if you make this shift in your thinking, you are going to attract highly-qualified candidates that will add to your corporate culture and profits. You will be in the forefront of recruiting as compared to 98% of your competitors, who are still using the pre-Civil War recruiting model.

Winnebago County and RBNH recently attended two community job fairs costing $75.00. We had a total of 46 individuals/leads from the two job fairs.

RE: P.N. 61,544
Geotechnical Engineering
Annual Professional Services Agreement
October 1, 2018 thru September 30, 2019
Winnebago County, Illinois

Dear Mr. Vanderwerff:

Testing Service Corporation (TSC) is pleased to submit this proposal to provide Geotechnical Engineering Services for the captioned project. Our proposal responds to a recent request by Mr. Frank J. Hodina, P.E. of the Winnebago County Highway Department. The broad objectives of our work will be to explore soil conditions and provide recommendations for foundation and pavement design for construction of various Winnebago County Highway Department, as part of an Annual Professional Services (APS) Agreement to extend from October 1, 2018 through September 30, 2019.

This proposal includes a Prevailing Wage surcharge to the cost for drilling and sampling. As requested, we have projected our costs to extend through the agreement period. It is understood that a separate more detailed proposal will be required for each individual project outlining the project description, our scope of work and associated costs.

The Illinois Department of Labor (IDOL) has taken the position that Core Drilling / Soil Testing is a covered activity under the Illinois Prevailing Wage Act (IPWA). These projects, along with all other government funded transportation and infrastructure related projects, are now under the guidelines of IPWA enforcement. The unit prices provided in the attached fee schedule are meant to comply with the IPWA, and therefore should be in agreement with the position taken by the IDOL.

Unless stated otherwise, TSC fees include all state and federal taxes and permits that may be required; however, they do not include any license, permits or bond fees that local governments may impose. The local fees, if any, will be added to the invoice. Unless we receive written instructions to the contrary, invoices will be sent to:

424 North Springfield Avenue
Rockford, Illinois 61101-5097
Tel: (815) 319-4000
Fax: (815) 965-6406

If this proposal meets with your approval, please indicate your acceptance by signing one copy and returning it to our Rockford, Illinois office. When completing the attached project data form, kindly indicate who is to receive copies of TSC's report and other project data.
Your consideration of our proposal is appreciated. We look forward to being of service to you on this project.

Respectfully Submitted,

RE:  P.N. 61,543
Independent Testing Laboratory Services
Annual Professional Services Agreement
October 1, 2018 thru September 30, 2019
Various Projects
Winnebago County, Illinois

Dear Mr. Vanderwerff:

Per a recent request from Mr. Frank J. Hodina, P.E. of the Winnebago County Highway Department, Testing Service Corporation (TSC) is pleased to submit this proposal to provide the Construction Materials Engineering Services that will be requested by you for the above referenced project. The broad objectives of our work will be to conduct and interpret tests and report our findings as directed by the Winnebago County Highway Department, as part of an Annual Professional Services (APS) Agreement to extend from October 1, 2018 through September 30, 2019. **It is understood that a separate more detailed proposal will be required for each individual project outlining the project description, our scope of work and associated costs.**

TSC is staffed and equipped to provide any of the following Quality Assurance (QA) testing services that may be ordered by you:

- **Field Quality Control Services**
  - Observe proof-rolling operations.
  - Recommend amount of undercut using IDOT cone penetrometer procedure.
  - Perform in-place density tests on engineered fill/backfill and granular base course.
  - Test plastic concrete for slump, air content, temperature, unit weight and cast test cylinders.
  - Establish rolling pattern for bituminous concrete pavement mix with nuclear density gauge.
  - Pickup samples in the field for laboratory tests.
  - Collect composite soil sample(s) from stockpile(s) using shovel, hand auger equipment or a backhoe supplied by others/client for analytical laboratory analyses for the purpose of determining whether the associated test data provides a basis for TSC to sign the IEPA Form LPC-663, Uncontaminated Soil Certification by a Licensed Professional Engineer.

- **Bituminous Concrete Batch Plant Quality Control Services**
  - Daily hot bin and extraction analysis.
  - Sampling and testing of stockpile materials.
  - Check and adjust mixing formulas, as necessary.
  - Check temperatures of bitumen, drum and final mix.
  - Mold Marshall samples and check for stability and flow or determine density of Prepared (HMA) specimen by means of Gyratory Compactor.

---

*Providing a Full Range of Geotechnical Engineering, Environmental Services, and Construction Materials Engineering & Testing*

Carol Stream, IL • DeKalb, IL • Gurnee, IL • Shorewood, IL • Rockford, IL
- Other tests as required by current IDOT procedures guide.

- **Portland Cement Concrete Batch Plant Quality Control Services**
  - Verify that current IDOT mix design is being used.
  - Check moisture content of fine aggregate.
  - Perform sieve analysis on stockpiled materials, as required by IDOT criteria.
  - Check the slump, air and temperature of final mix.
  - Other tests, as required by current IDOT procedure guide.

- **Laboratory**
  - Perform laboratory compaction curve for each soil type used.
  - Determine density and thickness for core samples submitted by contractor.
  - Aggregate gradation and soundness analysis.
  - Perform compressive and flexural strength tests for concrete cylinders and beams.
  - Analytical laboratory testing of composite soil sample(s) for various parameters accepted by clean construction or demolition debris (CCDD) facilities.
  - Other tests, as required.

TSC's field technicians are represented by Local 150 of the International Union of Operating Engineers. Supervision of the testing, observation and reporting is provided by a Registered Professional Engineer. Reports will generally be issued on a weekly basis as work progresses. Invoices will be issued monthly, subsequent to the reporting period.

As requested, we have projected our rates to 2019 or the time period of the APS Agreement of October 1, 2018 through September 30, 2019, as shown on the fee schedule below.

The Services performed by TSC under this proposal are subject to prevailing wage regulations under Illinois law. Prevailing wage rates are established in June by the State of Illinois. Should the established wage be changed between the time of this proposal and the time of work, it will be necessary to revise this proposal so that the rates required by law are properly reflected. Prevailing wage categories are defined as follows:

Material Tester I: Hand coring and drilling for testing of materials; field inspection of uncleared concrete and asphalt.

Material Tester II: Field inspection of welds, structural steel, fireproofing, masonry, soil, facade, reinforcing steel, formwork, cured concrete and concrete and asphalt batch plants, adjusting proportions of bituminous mixtures.

Unless we receive written instructions to the contrary, invoices will be sent to:
