Trustee Program Proposal Overview

What is the County Trustee Program?
State statute (35 ILCS 200/21-90) states that when a property does not receive a bid at the tax sale, the County, as trustee for all taxing districts, has the authority to bid and acquire the property. The County Trustee currently owns more than 600 parcels, mostly vacant lots. For the past 23 years, Winnebago County has hired Dennis D. Ballinger to be the Agent of the County Trustee Program to sell the properties owned by the County.

The County Trustee Program, at its core, is a trust for properties that became three years’ delinquent on property taxes and did not have a tax buyer at a county-wide tax sale. These properties end up in a trust held on behalf of all taxing districts that are owed property tax. Per State Statue, the Chairman of the County Board, representing the County, is the Trustee with responsibility to oversee the operation of the trust for the beneficiaries. Throughout Illinois, and historically in Winnebago County, an Agent is hired by the Trustee to manage the day to day affairs of the trust of properties, with the goal to bring the properties back to private sector owners, recouping the most taxes due.

What is the Region 1 Planning Council?
Region 1 Planning Council (RPC) is a special-purpose, regional government agency providing cross-jurisdictional, government-to-government collaborative planning across Northern Illinois. The regional planning model provides an efficient means to promoting a well-informed, comprehensive dialogue that holistically addresses regional issues by fulfilling the needs of government entities for long-range planning, securing funding, and analyzing and providing data in support of regional projects and initiatives.

Who governs RPC?
RPC is governed by appointees for each of its member agencies, including Boone and Winnebago Counties, Cities of Belvidere, Loves Park, Rockford, Illinois Dept of Transportation - District 2, Rockford Mass Transit District, Village of Machesney Park, plus 19 public and private associate members.

What sort of properties are held in County Trustee Program?
Any parcel can enter the County Trustee Program if the property is delinquent on taxes and no tax buyer purchases the tax certificate at the tax sale. The vast majority of the parcels in the program are vacant lots. Historically, there have been a number of houses and commercial/industrial buildings in the program. Commercial properties have included abandoned warehouses, car washes, for example.

How is the County Trustee Program funded?
Through the County Trustee Program, the state prescribes a funding mechanism to administer the program. When a property owned does not pay property taxes and a tax buyer does not bid on the taxes at the tax sale, the County Trustee receives a tax certificate to the property. If a property owner pays the taxes before the redemption period is over, the County receives the interest on the taxes (see Chart 1). Under the Ballinger contract, all of the interest on the tax redemptions went to Ballinger as
Agent. The amount of interest collected varies each year, but averaged over $200,000 the past four years.

This means that $200,000 on average was taken as revenue by the Trustee's agent for running the program in recent years.

If the property owner does not redeem the taxes, the County Trustee can receive a deed to the property. The Agent has held auctions to sell these properties and collects a commission on the property sales. The amount of commission varies each year, but averaged approximately $60,000 in the past three years. Since 1999, Dennis D. Ballinger has received over $2,000,000 cumulatively to perform the duties as the Agent.

What are the issues with how the County Trustee Program was administered in the past?
While Dennis D. Ballinger has collected interest and sales proceeds, the properties in the County Trustee Program have accumulated to large quantities and many cause major issues in Winnebago County neighborhoods. The last contract between Winnebago County and the Agent required two auctions per year, but auctions were not held on the required schedule, leaving properties in the County Trustee ownership and not in the hands of private owners. This contributed to the number of properties in Trust more than doubling from 2012 to 2019.

The delay in selling properties causes the properties to deteriorate, which causes fewer sales and a lower sales price. The current County Trustee Program does not provide funding for any maintenance or mowing on the County Trustee owned properties. The municipalities are forced to mow the properties to preserve the quality of life of neighboring residents. Additionally, public safety departments spend a great deal of resources on County Trustee structures for police and fire calls.

By shifting profit for the Agent from an outside entity back to local government, additional funding can go towards minimum maintenance costs to prevent further blight and hazards present on properties owned by Winnebago County in trust.

Why is maintenance on the County Trustee properties important?
Studies have shown the effect of unkempt properties have on the property values of neighboring properties. While the properties are in the County Trustee program, not maintaining them has a negative impact on the health and tax base values of the surrounding neighborhood. Until the property can be sold to a new owner and taken out of public ownership, property maintenance is critical to preserving property values of nearby properties.

How long has an overhaul of the County Trustee Program been discussed?
Beginning in April 2016, the Center for Community Progress began its work with local stakeholders on issues relating to blight in Rockford. Throughout these discussions, it became evident that the County Trustee Program was contributing to blight and loss of property values in the region by reducing the private sector investment into the properties. The report written by Center for Community Progress highlighted the County Trustee issues and suggested the program be reevaluated.
How did the Region 1 Planning Council become involved in the County Trustee Program discussion?

In 2018, the Mayor of Rockford and the Winnebago County Board Chairman chose one representative to meet with the RPC, since the RPC was in the process of creating the Land Bank to fight blight. Dr. Sandra Martell and Todd Cagnoni met with RPC staff in an attempt to tweak the County Trustee program into a more efficient program. In those discussions, it became clear that the Land Bank would be doing similar work to the County Trustee Agent. The Land Bank will be mowing and maintaining properties and selling distressed properties to new owners. The County Trustee Task Force issued a report to the County Board Chairman in January that proposed the RPC be named the County Trustee Agent.

What are best practices for the County Trustee Program?

Cook County utilizes its Land Bank to sell County Trustee properties to the public. Similar to RPC, the Cook County Land Bank has a system in place to sell properties quickly and efficiently, which prevents the need for a traditional public auction to sell County Trustee properties. Properties can be marketed and bids placed online to increase the number of potential buyers looking at these properties. Another best practice is to ensure that the buyer purchasing a County Trustee property doesn’t have a lengthy code enforcement or delinquent tax history. The goal of a successful County Trustee program is to get properties out of Trustee ownership as quickly as possible and selling properties online can ensure this goal is met.

What was the first proposal to the County?

The first proposal for a new County Trustee program made adjustments to the program funding to provide program proceeds be used for mowing. This program took the interest and sales proceeds and first paid $200,000 for maintenance costs, then paid legal costs, then the remaining proceeds were distributed to taxing codes based on amount of sales in each respective tax code (see Chart 2). All the proposals that have went in front of the County had a 33% profit share going to the Land Bank for reinvestment in Winnebago County neighborhoods. That 33% would be restricted for additional property investments only, not funding government operations or overhead, to target properties in Winnebago County that might end up in the Trustee program, and thus further increase the number of properties returning to private ownership.

Outside of the Land Bank’s 33% split and a property management reimbursement, the program was structured to not charge operating fees as Dennis D. Ballinger collected as part of sales and redemption proceeds.

What were the problems with the first proposal?

The Winnebago County Deputy State’s Attorney and Treasurer had concern over combining sales and redemption revenues into one lump sum county-wide before disbursement. It was the Deputy State’s Attorney’s opinion that doing so would not equitably distribute the proceeds to the tax codes that sold properties and some tax codes would be unfairly subsidizing maintenance in other tax codes. Although there is some room for interpretation of state statute to argue that the first proposal was wholly within the law, RPC was amenable to a compromise based on the Deputy State’s Attorney recommendation.

What was the second proposal to the County?

During a meeting with the Winnebago County Board Chairman and Deputy State’s Attorney, it was suggested that RPC apply an Agent Fee paid by the program at the beginning of each year. This fee, to be repaid by the program proceeds, would be paid by the County to the Agent to cover expenses to run
the program. The Agent could then use the Fee as they see fit, and in the RPCs case for maintenance costs such as for costs of mowing.

**Is the County and its general fund paying for this program?**
The intent of the program is to have the program proceeds fund the maintenance and program costs. In the first year, there will not be program proceeds to pay for the costs, so the County, as Trustee, would be required to fund the $200,000 start-up costs. This amount would be paid back to the County as soon as program proceeds are realized.

**Will the County have to fund this program every year?**
The funding of the following year’s program costs ($200,000) will be drawn out the program proceeds during the preceding year. For example, in 2020, $200,000 will be captured to fund 2021’s costs.

**What are the most pressing issues needing change in a new system?**
1. Basic maintenance on the County Trustee properties should be included in the new program so that properties don’t amplify blight while in the custody of the County as Trustee.
2. A modernized sales system will vastly improve program results. A sales system that is online based increases access and engagement.
3. A basic, minimal vetting of purchasers will ensure that properties that are purchased through the new system will not end up tax delinquent and back in the County Trustee program.

The Honorable Frank Haney  
Chairman of the Winnebago County Board  
404 Elm Street  
Rockford, IL  61101  

Dear Chairman Haney:  

Rosecrance respectfully requests $85,000 in sustaining operational support for the Rosecrance Crisis Triage Program, which provides emergency care for individuals experiencing mental health crises. Rosecrance is very grateful for the positive relationship with Winnebago County, and it is our hope you will support this important infrastructure effort to serve the vulnerable citizens of our community who struggle with a mental health disorder.  

The Crisis Triage Program seeks to provide 24/7/365 emergency mental health crisis stabilization services not found elsewhere in our community. This program significantly benefits our community:  

- Improves the quality of life of individuals in psychiatric crisis  
- Alleviates the inappropriate use of emergency departments and the county jail  
- Reduces the time required for first responders to assist people in a mental health crisis  

The Triage Program is a much-needed alternative to emergency departments for behavioral health care. It allows hospitals to handle other critical needs and gives those in psychiatric crisis comfortable, appropriate, and cost-effective mental health care.  

The Triage Program is a time-saving alternative for first responders. When police or fire personnel bring individuals to emergency departments, they are often required to stay for several hours, keeping them from their public safety responsibilities. In contrast, first responders can typically leave the Crisis Triage Program within 10 minutes. To further enhance this community benefit, Rosecrance partnered with Rockford Fire Department and received approval from the Illinois Department of Public Health to allow fire personnel to bring individuals with mental health concerns directly to the Triage Program, rather than to a hospital emergency department.
We are seeking this sustaining support from local municipalities, health systems, and local foundations. I have attached a detailed service/program explanation and related budget for the Triage center detailing our operating expenses, anticipated service revenues, and proposed community support. As you know, the triage services provided by Rosecrance were created in 2012 in response to the closing of the Singer Mental Health and funded primarily by a grant from the Illinois Department of Human Services/Division of Mental Health. Such funding has since been discontinued with the hoped replacement of a new funding stream through Medicaid. The roll-out of the new Medicaid services has not occurred. The only DHS/DMH support (included in the attached budget) is a $60,000 grant. In order for the triage services to continue as a sustainable, fully staffed, 24/7 on-site and mobile crisis response resource for Winnebago and Boone County residents is to seek and receive local support from our community partners. Appropriate and accessible crisis services for those who suffer from serious mental health disorders are an essential infrastructure component of every inclusive, healthy community. This community infrastructure resource is as important and essential as all other community services supported by local municipalities.

Rosecrance is grateful for your consideration to help sustain this important community program. Your investment greatly impacts clients, their families, and the community-at-large. Please contact me with questions or for more information. Thank you again for your commitment to the health of our community.

Sincerely,

Rosecrance Triage: Services & Budget

The Rosecrance Triage Center, located at 605 Mulberry in Rockford, Illinois, opened October 29th, 2012 and it is designed specifically for individuals in psychiatric crisis. The Triage Center, often viewed as a “behavioral health emergency room,” is a central point of entry for individuals in psychiatric crisis and is in operation 24 hours a day seven days a week. The Triage Center provides immediate evaluations for adults 18 years and older who are non-violent, not under the influence of drugs or alcohol and are medically stable, but struggling with mental health issues.

Essential functions of the Triage Center:

- Provide evidenced-based evaluation, assessment, and crisis stabilization services
- Determine the nature and severity of the presenting mental health problem
- Determine the least restrictive level of care that would best meet the needs of the client
- Conduct risk assessments to determine whether the client is at risk of harming self or others and assessing other risks related to mental illness
- Streamline the engagement process for individuals with psychiatric needs by expediting the process of assessment and referral with a structured care plan and access to services at the community mental health center.

Triage services are based on a Community Living Room (CLR) environment, which provides a comforting atmosphere for assessment and stabilization. The Triage Center provides comfortable lounge chairs, a nutrition center where snacks are available, a shower, and laundry services. Mental health evaluators work out of the Triage Center and provide on-site or mobile assessments for individuals experiencing a psychiatric crisis, as well as coordinate placement needs. The Triage staff work closely with local emergency departments, local law enforcement and first responders for referral and linkage to Triage as an acute care alternative.

Triage helps deflect patients from higher-cost emergency rooms and hospital visits, and diverts patients from the criminal justice system to more appropriate levels of community-based care. The Triage services are provided by clinically credentialed personnel who are supervised by a licensed mental health professional, and supported by RN nursing professionals, a consulting psychiatrist, and/or a certified mental health advanced practice nurse as needed.

Triage staff members work with clients to develop follow-up services upon discharge including referrals and linkages to ongoing mental health care, as well as additional community providers.

Admissions to Triage may come from area emergency rooms, law enforcement/paramedic transfers or transports, walk-in/direct access, or family member referrals.

OUTCOMES:
- The vast majority of the 1,000+ per year triage clients go home within 23 hours (3-year average of more than 60%) with scheduled follow-up behavioral health outpatient services at the Rosecrance Ware Center.
- Others are seamlessly moved to short stays in the adjacent 16 bed crisis residential program, with an average of 7 to 10 days length of stay
- Only 15-20% of the individuals are referred out for primary health care or acute psychiatric hospitalization.

ATTESTED BY: __________________________
FRANK HANEY
CHAIRMAN OF THE COUNTY BOARD
OF THE COUNTY OF WINNEBAGO, ILLINOIS

LORI GUMMOW
CLERK OF THE COUNTY BOARD
OF THE COUNTY OF WINNEBAGO, ILLINOIS
Midway Village Museum respectfully requests that the Winnebago County Board fund its World War II Days with a grant of $2,500. The grant will be used to promote the World War II Days marketing efforts in the Chicago area.

Now in its twenty-second year, World War II Days brings more than 8,000 visitors to Rockford annually. It is the largest World War II reenactment in the Midwest and the second largest in the United States. More than 1,200 reenactors come to this event from 24 states and sometimes even from England and New Zealand. In addition, about 7,000 visitors attend the event each year to see the battle reenactments and to visit the campsites, to see the displays and to enjoy the music and entertainment. The event covers many acres, so you cannot see the whole thing in one day! In addition, many historical, restored vehicles are transported to the event, including jeeps, cannon, half tracks and armor, including a Sherman tank. Visitors will include many veterans from past American wars. Although their numbers are dwindling, we even have some World War II veterans attend, who often attest to the accuracy of the displays and battles. The Museum rents a number of golf carts to transport the elderly and disabled.

The history of World War II is important to the history of Rockford. During World War II, Camp Grant, which was situated in Rockford, was the largest of 20 cantonments in the United States. At any one time, 50,000 soldiers were stationed here as their units were being organized and trained before shipping out to the war. For many soldiers, Rockford was the last place in America they ever knew. The Rockford community was very involved with the soldiers’ lives. They often paraded down State Street to enthusiastic crowds, and families often invited soldiers into their homes for a home-cooked meal on Sunday afternoons. So, we again invite the public, put our best foot forward and bring back the memories of the Greatest generation.

We greatly appreciate the Winnebago County Board’s kind consideration of this request. If you have any questions, I would be pleased to visit you in person and answer any of your questions, or replay in writing if that is preferred.
