WHEREAS, the impact of domestic violence is wide ranging, directly affecting individuals and society as a whole, here in this community, throughout the United States and the world; and

WHEREAS, domestic violence crosses all socioeconomic lines including but not limited to race, ethnicity, gender, age, education, employment and marital status; and

WHEREAS, in the State of Illinois domestic violence survivors and their children received over 615,700 hours of service from domestic violence programs in 2018; and

WHEREAS, in the year 2018, over 2,100 child and adult victims of domestic violence received direct services including emergency shelter, legal advocacy and counseling from the local domestic violence program, Remedies Renewing Lives. In addition, over 5,000 calls were made to the agency’s 24-hour crisis hotline. Furthermore, over 2,400 Emergency Orders of Protection were requested in Winnebago County; and

WHEREAS, Winnebago County joins with others across Illinois and the nation in supporting victims of domestic violence, as well as local programs, state coalitions, national organizations, and other agencies nationwide who are committed to increasing public awareness of domestic violence and sending a clear message to abusers that domestic violence is not tolerated in Winnebago County.

NOW, THEREFORE, I, Frank Haney, Chairman of the Winnebago County Board, hereby do proclaim October 2019 as Domestic Violence Awareness Month.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the County of Winnebago, Illinois to be affixed this 10th day of October, 2019.

Dear Sir,

I am writing this letter to express my interest to apply for the position of Board Member with the Housing Authority. My experience, my passion for the Housing Authority mission/vision and my eagerness to contribute to work with the board developing our communities are the reason I have chosen to apply for this role. I am an active community member with a background in Education leadership and Business Management. I would love the chance to give back by sharing my experiences and skill to the Housing Authority.

I am speaking 8 languages, 2 MBAs, MAT and Doctoral of Education in Process. I get along well with others when working in a group setting and I have the ability to help others find common ground when they disagree on what actions to take.

I am good with communication. I believe that It is a magic. Few words can change the world. Wars can start because of a word. I recall here Napoleon Bonaparte saying "We rule the world by our words".

Trustee Program Proposal Overview

What is the County Trustee Program?
State statute (35 ILCS 200/21-90) states that when a property does not receive a bid at the tax sale, the County, as trustee for all taxing districts, has the authority to bid and acquire the property. The County Trustee currently owns more than 600 parcels, mostly vacant lots. For the past 23 years, Winnebago County has hired Dennis D. Ballinger to be the Agent of the County Trustee Program to sell the properties owned by the County.

The County Trustee Program, at its core, is a trust for properties that became three years' delinquent on property taxes and did not have a tax buyer at a county-wide tax sale. These properties end up in a trust held on behalf of all taxing districts that are owed property tax. Per State Statue, the Chairman of the County Board, representing the County, is the Trustee with responsibility to oversee the operation of the trust for the beneficiaries. Throughout Illinois, and historically in Winnebago County, an Agent is hired by the Trustee to manage the day to day affairs of the trust of properties, with the goal to bring the properties back to private sector owners, recouping the most taxes due.

What is the Region 1 Planning Council?
Region 1 Planning Council (RPC) is a special-purpose, regional government agency providing cross-jurisdictional, government-to-government collaborative planning across Northern Illinois. The regional planning model provides an efficient means to promoting a well-informed, comprehensive dialogue that holistically addresses regional issues by fulfilling the needs of government entities for long-range planning, securing funding, and analyzing and providing data in support of regional projects and initiatives.

Who governs RPC?
RPC is governed by appointees for each of its member agencies, including Boone and Winnebago Counties, Cities of Belvidere, Loves Park, Rockford, Illinois Dept of Transportation - District 2, Rockford Mass Transit District, Village of Machesney Park, plus 19 public and private associate members.

What sort of properties are held in County Trustee Program?
Any parcel can enter the County Trustee Program if the property is delinquent on taxes and no tax buyer purchases the tax certificate at the tax sale. The vast majority of the parcels in the program are vacant lots. Historically, there have been a number of houses and commercial/industrial buildings in the program. Commercial properties have included abandoned warehouses, car washes, for example.

How is the County Trustee Program funded?
Through the County Trustee Program, the state prescribes a funding mechanism to administer the program. When a property owner does not pay property taxes and a tax buyer does not bid on the taxes at the tax sale, the County Trustee receives a tax certificate to the property. If a property owner pays the taxes before the redemption period is over, the County receives the interest on the taxes (see Chart 1). Under the Ballinger contract, all of the interest on the tax redemptions went to Ballinger as
Agent. The amount of interest collected varies each year, but averaged over $200,000 the past four years.

This means that $200,000 on average was taken as revenue by the Trustee’s agent for running the program in recent years.

If the property owner does not redeem the taxes, the County Trustee can receive a deed to the property. The Agent has held auctions to sell these properties and collects a commission on the property sales. The amount of commission varies each year, but averaged approximately $60,000 in the past three years. Since 1999, Dennis D. Ballinger has received over $2,000,000 cumulatively to perform the duties as the Agent.

**What are the issues with how the County Trustee Program was administered in the past?**

While Dennis D. Ballinger has collected interest and sales proceeds, the properties in the County Trustee Program have accumulated to large quantities and many cause major issues in Winnebago County neighborhoods. The last contract between Winnebago County and the Agent required two auctions per year, but auctions were not held on the required schedule, leaving properties in the County Trustee ownership and not in the hands of private owners. This contributed to the number of properties in Trust more than doubling from 2012 to 2019.

The delay in selling properties causes the properties to deteriorate, which causes fewer sales and a lower sales price. The current County Trustee Program does not provide funding for any maintenance or mowing on the County Trustee owned properties. The municipalities are forced to mow the properties to preserve the quality of life of neighboring residents. Additionally, public safety departments spend a great deal of resources on County Trustee structures for police and fire calls.

By shifting profit for the Agent from an outside entity back to local government, additional funding can go towards minimum maintenance costs to prevent further blight and hazards present on properties owned by Winnebago County in trust.

**Why is maintenance on the County Trustee properties important?**

Studies have shown the effect of unkempt properties have on the property values of neighboring properties. While the properties are in the County Trustee program, not maintaining them has a negative impact on the health and tax base values of the surrounding neighborhood. Until the property can be sold to a new owner and taken out of public ownership, property maintenance is critical to preserving property values of nearby properties.

**How long has an overhaul of the County Trustee Program been discussed?**

Beginning in April 2016, the Center for Community Progress began its work with local stakeholders on issues relating to blight in Rockford. Throughout these discussions, it became evident that the County Trustee Program was contributing to blight and loss of property values in the region by reducing the private sector investment into the properties. The report written by Center for Community Progress highlighted the County Trustee issues and suggested the program be reevaluated.
How did the Region 1 Planning Council become involved in the County Trustee Program discussion?

In 2018, the Mayor of Rockford and the Winnebago County Board Chairman chose one representative to meet with the RPC, since the RPC was in the process of creating the Land Bank to fight blight. Dr. Sandra Martell and Todd Cagnoni met with RPC staff in an attempt to tweak the County Trustee program into a more efficient program. In those discussions, it became clear that the Land Bank would be doing similar work to the County Trustee Agent. The Land Bank will be mowing and maintaining properties and selling distressed properties to new owners. The County Trustee Task Force issued a report to the County Board Chairman in January that proposed the RPC be named the County Trustee Agent.

What are best practices for the County Trustee Program?

Cook County utilizes its Land Bank to sell County Trustee properties to the public. Similar to RPC, the Cook County Land Bank has a system in place to sell properties quickly and efficiently, which prevents the need for a traditional public auction to sell County Trustee properties. Properties can be marketed and bids placed online to increase the number of potential buyers looking at these properties. Another best practice is to ensure that the buyer purchasing a County Trustee property doesn’t have a lengthy code enforcement or delinquent tax history. The goal of a successful County Trustee program is to get properties out of Trustee ownership as quickly as possible and selling properties online can ensure this goal is met.

What was the first proposal to the County?

The first proposal for a new County Trustee program made adjustments to the program funding to provide program proceeds be used for mowing. This program took the interest and sales proceeds and first paid $200,000 for maintenance costs, then paid legal costs, then the remaining proceeds were distributed to taxing codes based on amount of sales in each respective tax code (see Chart 2). All the proposals that have went in front of the County had a 33% profit share going to the Land Bank for reinvestment in Winnebago County neighborhoods. That 33% would be restricted for additional property investments only, not funding government operations or overhead, to target properties in Winnebago County that might end up in the Trustee program, and thus further increase the number of properties returning to private ownership.

Outside of the Land Bank’s 33% split and a property management reimbursement, the program was structured to not charge operating fees as Dennis D. Ballinger collected as part of sales and redemption proceeds.

What were the problems with the first proposal?

The Winnebago County Deputy State’s Attorney and Treasurer had concern over combining sales and redemption revenues into one lump sum county-wide before disbursement. It was the Deputy State’s Attorney’s opinion that doing so would not equitably distribute the proceeds to the tax codes that sold properties and some tax codes would be unfairly subsidizing maintenance in other tax codes. Although there is some room for interpretation of state statute to argue that the first proposal was wholly within the law, RPC was amenable to a compromise based on the Deputy State’s Attorney recommendation.

What was the second proposal to the County?

During a meeting with the Winnebago County Board Chairman and Deputy State’s Attorney, it was suggested that RPC apply an Agent Fee paid by the program at the beginning of each year. This fee, to be repaid by the program proceeds, would be paid by the County to the Agent to cover expenses to run
the program. The Agent could then use the Fee as they see fit, and in the RPCs case for maintenance costs such as for costs of mowing.

*Is the County and its general fund paying for this program?*

The intent of the program is to have the program proceeds fund the maintenance and program costs. In the first year, there will not be program proceeds to pay for the costs, so the County, as Trustee, would be required to fund the $200,000 start-up costs. This amount would be paid back to the County as soon as program proceeds are realized.

*Will the County have to fund this program every year?*

The funding of the following year’s program costs ($200,000) will be drawn out the program proceeds during the preceding year. For example, in 2020, $200,000 will be captured to fund 2021’s costs.

*What are the most pressing issues needing change in a new system?*

1. Basic maintenance on the County Trustee properties should be included in the new program so that properties don’t amplify blight while in the custody of the County as Trustee.
2. A modernized sales system will vastly improve program results. A sales system that is online based increases access and engagement.
3. A basic, minimal vetting of purchasers will ensure that properties that are purchased through the new system will not end up tax delinquent and back in the County Trustee program.

Affordable Care Act (ACA) Disclaimer

If your existing group health plan or group health insurance coverage (each "plan") was in effect on March 23, 2010, it may be a "grandfathered health plan" as that term is defined in the Affordable Care Act and related regulations (currently 75 Fed. Reg. 34538).

Federal regulations have been published regarding the maintenance and loss of grandfathered health plan status. We encourage you to confer with your own legal counsel to determine what benefit changes or other events may cause the loss of grandfathered health plan status and to evaluate the benefit options that are most suitable for you.

The following proposed benefit programs are not considered "grandfathered health plans".

Notwithstanding anything in the renewal or Proposal to the contrary, BCBSIL reserves the right to revise or withdraw our offer, or to change our administrative fees (and/or pass-through amounts) at any time before or during the contract period (all of which may be estimates, allocated or pro-rated amounts) if any local, state or federal legislation, regulation, rule or guidance (or amendments or clarifications thereto) is enacted or becomes effective/implemented, which would increase projected claim costs or BCBSIL’s expenses or cost of plan administration, or would otherwise require BCBSIL to pay, submit or forward, on its own behalf or on the Employer Group’s behalf, any additional tax, surcharge, fee, or other amount.

NOTICE: ACA provided for the establishment of a temporary reinsurance program(s) for a three (3) year period (2014-2016), which is funded by reinsurance contributions (“Reinsurance Fees”) collected from health insurance issuers and self-funded group health plans, beginning in 2014. Information as to how these fees are calculated is provided by federal and state governments. Federal regulations establish a flat, per member, per month fee.

ACA also provides that self-funded plan sponsors are responsible for the Reinsurance Fee. BCBSIL will not assist in the remittance of those fees to the federal government; however, upon request, we can make available to our self-funded/ASO customers, existing data and information that may be helpful in determining, reporting on, and remitting their Reinsurance Fee amounts.

As part of the pre-sale, sales, negotiation and implementation processes, Blue Cross and Blue Shield of Illinois will perform a review of the employer's health benefits strategies. Included in this review will be assessments of whether the employer's strategy requires any customization that may lead to additional fees and charges.

Throughout this process, items may be discovered that warrant review in more detail when assessing the full scope of the employer's benefits strategies. With that in mind, there are specific services that may require the employer pay additional fees and charges, depending on the level of customization. These services include, but are not limited to: custom plan designs and benefits, third party vendor arrangements, file transfers for import or export of data, ad hoc reporting and analytics and custom processes, adjudication workflows and services.

This quote is being provided for the period indicated above.

This quote expires as of the effective date indicated above.

This quote is not a guarantee of issuance.

This quote assumes that HCSC will be the exclusive insurance carrier for medical coverages.

Non-standard benefits are subject to e-review and approval.

The minimum participation requirement is 75% without waivers and 50% with valid waivers in order for coverages to be issued.

This quote is contingent upon Underwriting approval of the eligibility definitions.

This proposal is contingent upon receipt and approval by Underwriting of the eligible retiree definition, including age, years of service, etc.

Part-time employees are not eligible for coverage.

This proposal assumes no retiree coverage.

This proposal is contingent upon the receipt and approval by Underwriting of a completed Controlled Affiliate Letter.

Upon inquiry from employer groups, BCBS will provide information to the employer group regarding commissions and other compensation paid to the employer’s agent by BCBS in connection with the employer's policy or contract with BCBS.

This proposal is contingent upon receipt and approval of large claim information. If there are any on-going medical conditions on any employees or their dependent that have not been disclosed and that have an adverse affect on the level of risk, we reserve the right to re-rate or withdraw the proposal.

Experience and Large Claim data must be provided on prior carrier reports.

The quote is being offered on an immature basis. Mature numbers have been provided for illustrative purposes only.

HCSC reserves the right to adjust the Average Claim Value if one or more of the following occurs within the coverage period:

- the Account’s composition changes (i.e. demographics)
- the Account’s number of covered employees increases or decreases by more than 10%
- the Account’s benefit program changes

Employers that do not use Prime Therapeutics as their pharmacy benefit manager are NOT eligible for a Rebate Credit.

CONDITIONS AND CAVEATS
Please refer to the ACA Disclaimer regarding benefits and final pricing.

HCSC's current estimate of the rebates it will receive from the PBM, for drugs covered under the medical benefit on an aggregate basis for the policy period, is approximately $0.80 per employee per month.

If the prescription drug program is not administered by Prime today but is awarded the administration of the prescription drug program, the medical claim cost will be reduced due to the integration of the medical and prescription drug program.

We reserve the right to revise or withdraw our offer if, at any time during the projected coverage period:
- The actual number of enrolled contracts (in total, by product, or by benefit plan), the Single/Family mix, or the Medicare/Non-Medicare mix varies by +/- 10% from our projections.
- The information upon which our projections were based (benefit levels, census/demographics, commissions, etc.) becomes outdated or inaccurate.

Wellbeing Management (Health Management & Advocacy program) is included in the quoted administration fee.

Projected Net Paid Claims for non-HMO Medical coverages on these exhibits include Estimated Value Based Care Payments and Savings.

Value Based Care payments apply to Stop Loss Coverage.

BCBSIL retains the right to recoup monetary credits provided, any remaining implementation costs, shared savings or PG incentive fees from the plan sponsor in the event of early termination of the proposed coverage or contract, either in its entirety or with respect to certain custom services or programs included in this offer.

If a third party stop loss carrier is selected, a Stop loss Accommodation fee will apply.

Offer is contingent upon proposed Wellbeing Management package design. Any modifications to the proposed package will impact the Wellbeing Management fee and Administrative Fee.

**Additional Information (from original contract):**

- **UPDATE - $3,000 implementation fee would apply since a portion of the 2016 contract would be terminating prior to 12/31/2020**

Original 2016 contract language: NIHP would accept the proposed rate guarantee for June 1, 2016 through December 31, 2018 of the current proposed fees. For calendar years 2019 and 2020, a 2% increase respectively will apply each year for admin fees. If the County commits to this long term contract, NIHP would be willing to eliminate the implementation fee of $3,000. This rate guarantee will exclude the increase on dental claims administration that was previously agreed upon for 1/1/2017. NIHP would require the $3,000 implementation fee to be paid if the County terminates any portion of their contract with NIHP prior to 12/31/2020.

- NIHP cannot guarantee fees from outside vendors.
- Performance Guarantees are available upon request
